Good morning

Can you please look at this and identify what area the elevated reading (28) is located?

Also, do you know where the Arrow GPS unit is? It is not in the Conex box on Site.

Thank you
Chris

This email transmits the unvalidated PCB Aroclor results for the SHILOH CHURCH ROAD REMOVAL site, CT9205, work order 2108007.

These data are attached as a pdf file.

While we expect the final data to be the same as the unvalidated data, some minor editing may take place.

Please let me know if you have any questions.
